$\mathbb{Z}_2$ Gauge Theory: Gauge-Variant vs Gauge-Invariant
Mean within-orbit variance
0.25
0.20
0.15
0.10
0.05
0.00
4
6
8
10
Lattice size N
Same plaquette config
(gauge-invariant observable),
different link values
(gauge-variant)
Link variance (gauge-variant)
Plaquette variance (gauge-invariant, ≈ 0)
Bernoulli(0.5) baseline (var = 0.25)
